

ITERATION

What?

Ask ChatGPT questions until you have the information you need by rephrasing and giving more context.

Why?

By asking more questions you're building a better understanding between the AI and you for more accurate answers.

When?

When you're sitting on information but don't know how to get the best answers or formulations possible yourself.

How?

Edit the question until you have the best answer from ChatGPT, and provide more context for a better result.
